

## NEIGHBORHOOD VIRTUAL VISIT

# See a SLUCare Provider In Your Neighborhood, VIRTUALLY

Now you can have a one-on-one conversation with a SLUCare provider from the comfort of your neighborhood. SLUCare is partnering with St. Louis churches to host tele-medicine kiosks for private, virtual medical visits. The kiosks enable those without smartphones, tablets or internet access to see a SLUCare provider.

To schedule a virtual visit appointment, patients can choose one of the participating churches listed below. The appointment will be held at the designated church in an area where the provider and patient interact through the kiosk.

Most insurances are accepted, and self pay options are also available. Some limitations apply. Initially appointments are available for existing SLUCare patients, we will be accepting new patients very soon.

Call 314-977-5463 to learn more or to schedule your appointment.
